# Jesse Lee Stondell, M.D.

**Philosophy of Care**

My aim is to provide the best possible care for a challenging chronic condition. With each patient I hope to provide long term solutions with the goal of preventing progression of disease and improving quality of life.

**Clinical Interests**

I am a locally trained gastroenterologist with a primary focus on inflammatory bowel disease. Our medical center provides a modern approach to treatment with experts in nutrition, pharmacy, and surgery to provide complete care for the IBD patient. I also specialize in unsedated colonoscopy/water colonoscopy for those who prefer to avoid opiates/sedatives during their procedures. Lastly, I can perform specialized chromoendoscopy for IBD patients who need more advanced colon cancer screening.

**Research/Academic Interests**

Dr. Stondell's research interests include: clinical trials for new medications related to IBD treatment, and water colonoscopy trials.

**Title**

Associate Clinical Professor
Program Director, Department of Gastroenterology

**Specialty**

Gastroenterology, Inflammatory Bowel Disease

**Department**

Internal Medicine

**Division**

Gastroenterology and Hepatology

**Clinic**

UC Davis Medical Group, Sacramento - Midtown
UC Davis Medical Group, Folsom

**Address/Phone**

UC Davis Midtown Ambulatory Care Center, UC Davis Medical Group - Midtown, 3160 Folsom Blvd Sacramento, CA 95816
