

UC DAVIS
ALZHEIMER'S DISEASE
CENTER

“Depression in
Alzheimer’s Disease:
Cause or Consequence”

Dr. Scott Mackin

Tuesday, November 1, 2016

6:30 – 7:30 p.m.

Lesher Center for the Arts

Dr. Mackin is a clinical neuropsychologist and Associate Professor of Psychiatry at the University of California, San Francisco. His research program is focused on structural and functional brain abnormalities associated with accelerated cognitive decline in older adults with depression.

Dr. Mackin's talk will review current literature summarizing the link between major depression and Alzheimer's disease. He will explore major depression as a risk factor for AD, current findings associating depressive symptoms and cognitive decline, and implications for treatment of depression in older adults with mild cognitive impairment and Alzheimer's disease.

Lesher Center for the Arts
1601 Civic Drive
Walnut Creek, CA 94598

Tickets available through lesherartscenter.org or call 925-943-7469
