

Theodore Wun, M.D.

Philosophy of Care	I practice a collaborative model of team-based care where the patient is at the center and an active participant.
Clinical Interests	Dr. Wun is a hematologist and medical oncologist with a focus on non-malignant blood disorders. He has special clinical interest and expertise in the care of patients living with sickle cell disease. In addition, he often consults on patients with venous thrombosis, especially associated with cancer.
Research/Academic Interests	Dr. Wun's main research interests are in sickle cell disease and cancer-associated venous thrombosis. Contributions of his research group have included more fully describing the epidemiology of cancer-associated thrombosis and complications of sickle cell disease. He has also led or participated in clinical trials aimed at improving outcomes for people with these disorders.
