

Adult Nephrology

Telehealth Consultations

We offer telehealth consultations for a variety of nephrology conditions. If you would like to refer a patient for a condition that is not listed below, please send your request along with the patient's chart notes to the telehealth coordinator for the specialist's consideration.

Clinical Conditions

- Elevated Creatinine
- Chronic Kidney Disease
- Glomerulonephritis
- Proteinuria
- Nephrotic Syndrome
- Metabolic Acidosis
- Abnormal Electrolytes (typically K, Na, Ca)
- Patients with Diabetes/Hypertension and Renal Disease
- Difficult to Control Hypertension

Necessary Clinical Information

- Recent history and physical examination, and all applicable clinical information from the patient's chart
- List of all allergies and medications taken in the past 6 months
- Chemistries, renal panel and CBC, and urinalysis (as far back as possible)

Helpful Information: Renal Ultrasound

Information Needed Prior to Scheduling an Appointment

- [Telehealth Referral Request Form](#)
- Patient History Questionnaire (completed by patient)
- Necessary clinical information as listed in the above section

Information Needed Before the Consultation Begins

- Signed [UC Davis Health Acknowledgement of Receipt: Notice of Privacy Practices](#) form (new patients only)
- Documented verbal consent from the patient for participation in a telehealth consultation

Post-Consult Information to Have Available for Patient

- "When Your Kidneys Fail" booklet
