Adult and Pediatric Urology

Telehealth Consultations

We offer urology telehealth consultations for certain adult and pediatric clinical conditions. If you would like to refer a patient with a condition that is not listed below, please send your request with the patient’s chart notes to the telehealth coordinator for the specialist’s consideration.

Clinical Conditions

- Bladder Outlet Obstruction
- Urinary Incontinence
- Urinary Stones
- Scrotal Masses
- Hematuria
- Urologic Malignancies
- Urinary Tract Infections
- Phimosis
- Cryptorchidism (Undescended Testicle)

Necessary Clinical Information

- Complete history and physical; relevant family/social history
- Pertinent outside records, including documentation of previous urological evaluation
- Current medications, allergies and drug levels
- Summary of patient’s course regarding urological issues, such as frequency, severity and response to interventions
- Copy of PCP initial intake and follow-up evaluation pertaining to problem prompting referral indicating his/her impression, plan and specific questions
- If available: Report of labs or diagnostics (e.g., UA/UC, Serum creatinine, PSA, CT Urogram, Renal U/S, Scrotal U/S, KUB)

Information Needed Prior to Scheduling an Appointment

- Telehealth Referral Request Form
- Necessary clinical information (as described above)
- Patient questionnaire (for pediatric patients)

Information Needed Before the Consultation Begins

- Signed UC Davis Health Acknowledgement of Receipt: Notice of Privacy Practices form (new patients only)
- Documented verbal consent from the patient, parent or legal guardian for participation in a telehealth consultation
