

Poster Presentations INAUGURAL NURSING SCIENCE AND PROFESSIONAL GOVERNANCE CONFERENCE

■ Quality improvement ■ Innovation ■ Evidence-based practice ■ Previously presented

#	Abstract title	Unit/department	Strategic objective
A	Outpatient case management: An evolution towards value-based care	Adult Infusion Center UBPC	Best financial stewardship
B	Improving the patient's experience through communication	Ambulatory Nursing Governance Council	Best patient experience
C	Raising the bar for nursing care with specialty certification	Cancer Center UBPC	Best people & practice environment
D	Comfort strategies utilized in pediatric peripheral iv placement	Children's Hospital UBPC	Best patient experience
E	Surgical team handoff to the CSC PACU nurse: an evidence implementation plan	CSC PACU UBPC	Best quality
F	Improving patient flow on an orthopedic unit: a pilot project	Davis 14 UBPC	Best patient experience
G	Discharge by noon	Davis 6 UBPC	Best financial stewardship
H	Fall reduction Davis 7 pediatrics	Davis 7 Pediatrics UBPC	Best quality
I	CAUTI reduction	East 4 UBPC	Best quality
J	Falls: Decreasing the number of falls for the neuroscience patient population	East 5 Neuroscience UBPC	Best quality
K	Timely admissions	East 5 PM&R UBPC	Best quality
L	Communication whiteboards: Promoting effective communication by updating patient whiteboards	East 6 Cardiothoracic PCU UBPC	Best patient experience
M	Increasing the number of certified registered nurses in uc davis emergency department	ED UBPC	Best people & practice environment
N	2018 Inpatient documentation upgrade	EMR Council	Best quality
O	Improving pain outcomes in home health patients	Home Health UBPC	Best quality
P	From post surgery through survivorship: Self-management support of colorectal patients with ostomies	Thomas Dwyer Adult Infusion Center	Best quality
Q	CAUTI prevention in the neurosurgical intensive care unit	NSICU UBPC	Best quality
R	RN whiteboard utilization in the hospital setting: Implementation to increase compliance	PCR UBPC	Best patient experience
S	Powerglide pro vs bioflo as a reliable midline vascular access device for sequential blood sampling	PICC Apheresis UBPC	Best quality
T	Implementing a multidisciplinary pediatric A-F bundle and early mobility program in pediatric ICU	PICU UBPC	Best quality
U	Implementation of structured problem solving at UC Davis Medical Center: engaging the front line nurse	Quality & Safety Council UBPC	Best quality
V	Falls in SICU	SICU UBPC	Best quality
W	Easing the patient's transition of care	T6 MSU UBPC	Best patient experience
X	Did you know your patient's bed calls your vocera?	Tower 4 UBPC	Best quality
Y	Going lean: A system wide approach to decreasing CAUTI	Quality & Safety	Previously presented

Continued on back

1	A restructuring of the wound care process to decrease central line associated bloodstream infections	Burn ICU UBPC	Best quality
2	Improving handoffs and transitions	Clinical Practice Council	Best quality
3	Supply waste reduction in the CTICU	CTICU UBPC	Best financial stewardship
4	Piloting an inter-professional collaboration program between nurses and physicians in a trauma environment	Davis 11 UBPC	Best patient experience
5	Preventing falls through hourly rounding and bedtime toileting	Davis 12 UBPC	Best quality
6	A comprehensive, multidisciplinary approach to neonatal CLABSI reduction	Davis 5 NICU UBPC	Best quality
7	Falling for you: Preventing falls on Davis 8	Davis 8 UBPC	Best quality
8	Falls reduction through implementation of scheduled toileting	East 8	Best quality
9	Updating the collection process to prevent mislabeling and mishandling of GI lab specimens	GI lab UBPC	Best quality
10	No more power point! An orientation escape room	Kaiser South Sacramento	Best people & practice environment
11	Elevating comfort levels: The impact of simulation education in an academic ICU	MICU UBPC	Best people & practice environment
12	Inter-unit partnership and collaboration: Best financial stewardship: One-hour transfer out of the ICU	MSICU Blue UBPC	Best financial stewardship
13	Reducing CLABSI through RNs placing the initial central line dressing: A quality improvement project	MSICU Gold UBPC	Best quality
14	Postpartum depression (PPD) screening: Educating the bedside nurse	Nadia Carrasco University Birthing Suites	Best quality
15	Improving newborn care: Antibiotic stewardship in the newborn nursery	Newborn Nursery UBPC	Best quality
16	Instituting a dynamic structured unit fall prevention program	North 1 UBPC	Best quality
17	Music therapy in the perioperative setting	PACU UBPC	Best patient experience
18	Removal of venous access devices under local anesthesia	Radiology UBPC	Best quality
19	Dialysis Solution Panel (DSP) test: Can it be used to reduce the risk of Osmotic Demyelination Syndrome (ODS) in hemodialysis patients?	Renal Services	Best quality
20	Increasing patient comfort, perception and satisfaction: Waiting room renovation	Same Day Surgery	Best patient experience
21	Improving sepsis outcomes, a collaborative approach addressing barriers defining terms	Sepsis Improvement Committee (PCR Action UBPC)	Best quality
22	Enhancing perinatal loss workflow: Implementation of a standardized care workflow to improve patient outcomes, education, and resources for grieving families	T3 WP & D3 UBPC	Best quality
23	Improving CHG Compliance among transplant and medical-surgical patients on Tower 8	Tower 8 UBPC	Best quality
24	Creating pediatric education in an adult world	Children's Hospital	Previously presented
25	UC Davis Health Peer Responder Program: Building resilience	Children's Hospital	Previously presented
26	Honor Guard: A multidisciplinary ritual to honor patients and families who choose organ donation	PICU/PCICU	Previously presented
27	Developing a cardiac neurodevelopmental program	PICU/PCICU	Previously presented
28	Post-operative care for adult congenital heart disease patients in a pediatric cardiac intensive care unit	PICU/PCICU	Previously presented
29	Practice change vs. enhancing nursing education: what a multi-service 36-bed pediatric unit found worked best to reduce CLABSI rates	Pediatrics - Davis 7	Previously presented

To Earn Continuing Education Contact Hours (CEs)

Rate posters online using **QR code** or online at <https://bit.ly/2FspjFB>

Rate 6 posters = 1 CE

Rate 12 posters = 2 CEs

Rate 18 posters = 3 CEs

AFTER COMPLETING EVALUATIONS, SIGN THE APPROPRIATE ROSTER.
Sign only one roster.

If you rated 6 posters, sign your name to the 1 CE roster

If you rated 12 posters, sign your name to the 2 CEs roster

If you rated 18 posters, sign your name to the 3 CEs roster
