Our work includes:

- Serving our community — and our world — during infectious disease outbreaks and pandemics
- Providing the highest-level trauma care for our entire region
- Acting as a crucial specialty and subspecialty care resource for a large portion of California
- Advancing diagnosis, treatment and prevention through research
- Educating providers and the health care leaders of the future
- Training and supporting rural health providers
- Demonstrating how to serve an urban core community

Our academic health system includes:

- UC Davis Medical Center
- UC Davis Health Community Clinics
- UC Davis School of Medicine
- Betty Irene Moore School of Nursing at UC Davis
- UC Davis Children’s Hospital
- UC Davis Comprehensive Cancer Center
- UC Davis MIND Institute
- Community partnerships with organizations and health providers across our 33 county Northern California service area, to improve levels of patient care everywhere

At UC Davis Health we proudly apply the expertise, discoveries and technology of a world-class university to advance health and well-being for people and patients — both here in California and across the nation.
Nationally renowned UC Davis Medical Center is a leading referral center for the most seriously injured or ill patients and the most medically complex cases. It is nationally ranked in nine adult and four pediatric specialty areas.

Ranked among the nation’s top 50 children’s hospitals in neonatology, nephrology, **orthopaedics**, and **urology**

*Together with Shriners Hospitals for Children – Northern California

Ranked among the nation’s top 50 hospitals in cancer, cardiology and heart surgery, ENT, genetics, nephrology, neurology and neurosurgery, orthopaedics, pulmonology and lung surgery, and urology

High-performing in abdominal aortic aneurysm repair, COPD, colon cancer surgery, gastroenterology & GI surgery, heart failure, lung cancer surgery, and transcatheter aortic valve replacement (TAVR)

UC Davis Medical Center successfully treated the nation’s first community spread COVID-19 patient, helping to inform testing protocols and other pandemic response best practices

Established the region’s first post-COVID-19 clinic for long-haul patients

Philanthropy impact:

The Children’s Miracle Network raised nearly $3.5 million for UC Davis Children’s Hospital, making it one of the network’s top hospitals

Continued support from Ernest Tschannen’s historic $38.5 million gift, and other generous donations, led to substantial progress on the Tschannen Eye Institute Building — designed to house leading-edge patient care, inspired educational programs and a pioneering research environment

The nation’s highest recognition for nursing excellence

A level IV NICU (the highest possible rating), one of Newsweek’s Best Maternity Hospitals 2021, and a Blue Distinction Center for Maternity Care

A Baby-Friendly Hospital

The West Coast’s first American College of Surgeons-verified level I Children’s Surgery Center

The only level I trauma center for both adult and pediatric emergencies in inland Northern California

Among the nation’s best hospitals for adults and children, one of the top 10 hospitals in California, and #1 in Sacramento

For year ending June 30, 2020

- **Licensed beds**: 646
- **ER visits**: 73,194
- **Clinic/office visits**: 808,242
- **Admissions**: 29,841

*Philanthropic contributions don’t include $13 million in capital campaign contributions.**
Innovative training prepares future doctors to treat underserved communities:

- In urban and rural communities
- In California’s Central Valley
- By advancing Latino health
- By closing the primary care gap

For more than 40 years, UC Davis students have volunteered countless hours in free community clinics delivering care for underserved populations — including by telehealth and phone during the pandemic.

Ranked among America’s best

The UC Davis School of Medicine is ranked among America’s best top-50 medical school for primary care and research in 2022 U.S. News & World Report rankings, including #4 for its diversity and #9 for family medicine training.

Philanthropy impact:

We awarded more than $1.5 million in scholarships to medical students in 2020, a 50% increase from 2016.

As its class gift, the Betty Irene Moore School of Nursing’s Class of 2019 doctoral program initiated a Student Success Fund.

More than $230,000 from 900 donations helped students, trainees and staff facing pandemic hardship.

Faculty, Staff and Students

11,799 Staff, full & part time
1,252 Physicians*
2,964 Nurses
1,054 Students
957 Residents & fellows
1,789 Faculty and other academic personnel, full & part time

*Direct care providers

All numbers are snapshots in time and approximate

A new online post-master’s certificate program seeks to double California’s pipeline of psychiatric mental health nurse practitioners.

The Center for Health and Technology offers telehealth education programs for community providers, students and residents, with collaborations around specific conditions.

U.S. News continues to rank the Betty Irene Moore School of Nursing at UC Davis among the top 50 U.S. nursing schools. In its first 10 years, the school has grown from 33 students in two programs to 325 students in five programs.
UC Davis Health research includes clinical, translational and basic-science studies, with an emphasis on collaboration and improving health for people, communities and entire populations.

Confronting major health threats

- One of 51 US cancer centers designated “comprehensive” by the National Cancer Institute, and part of the world’s largest cancer research organization, the University of California’s Cancer Consortium
- Members of California’s Alzheimer’s Disease Task Force and recipients of a $54 million joint dementia grant
- Home to the School of Nursing’s Family Caregiving Institute
- The UC Davis MIND Institute is launching a new four-year college program for students with intellectual disabilities, designed to create a model for other California universities
- Home to the first state-funded center for firearm violence research, helping to inform both public policy and clinical practice

The Clinical and Translational Science Center helps advance lab findings into treatments, engage communities in research, and educate the next generation of clinicians and scientists

A UC Davis Health team is launching the world’s first, FDA-approved human clinical trial using stem cells before birth to treat the most serious form of spina bifida.

External research funding:

$276 million in 2020

Philanthropy impact:

A grateful patient’s $4 million gift created first-ever endowed chairs in glaucoma and glaucoma research

A grateful family’s anonymous $600,000 gift established the Brain Computer Interface Research and Support Initiative, to assist in stimulating recovery following a traumatic brain injury or stroke

Part of California’s COVID-19 Testing Task Force, and a source of testing support and expertise for our region

Improving health for all:

- Institute for Regenerative Cures
- Center for Reducing Health Disparities
- MIND Institute
- Center for Precision Medicine
- Center for Professional Practice of Nursing
- Center for Healthcare Policy and Research
- Center for Health and Technology
Caring for vulnerable population:
- Innovative partnerships with Federally Qualified Health Centers (FQHCs)
- Helping moms with opioid use disorders, with a dedicated clinic and special training for health care teams in urban and rural communities
- Creating a “virtual children’s hospital” for vulnerable rural Northern California children via telehealth partnerships
- Leading a statewide anti-tobacco initiative for safety-net patients
- Targeted physician-training programs assist underserved populations and communities

Partnering with community organizations:
- Sacramento Republic FC
- California International Marathon
- Dozens of other organizations and events

UC Davis programs:
- Train others to use technology-enabled health care
- Offer community workshops to increase health literacy
- Help students from diverse backgrounds to consider health careers

Philanthropy impact:
- Ruth and Paul Flowers gave $100,000 to launch the Super Fritz & Friends Fund, a new initiative to support child cancer patients and their families
- A $4.55 million gift from Katy and Dale Carlsen — our largest pediatrics gift to date — established the Foster Care Clinic and Resilience Support Fund

The UC Davis Health Cancer Care Network unites multiple cancer centers to offer patients leading-edge care in their own communities

Honored by Practice Greenhealth for progress on environmental performance and sustainability, including for the work of our unique farm-to-fork food service

The School of Nursing partners with more than 350 clinical sites and community agencies for its education and research programs

The UC Davis Health actively engages with the diverse communities it serves in Sacramento, Northern California and beyond.
