

PUBLICATIONS: Cite the CTSC Grant Submit to PubMed Central

OVERVIEW: The NIH requires all publications resulting from federally funded (including CTSC-supported) research to acknowledge that support in publications and posters AND comply with the NIH Public Access policy. The NIH public access policy requires scientists to submit final peer-reviewed journal manuscripts that arise from NIH funds to PubMed Central immediately upon acceptance for publication. Compliance with these policies is not only mandated by the federal government but citing the CTSC grant also provides the NIH with a critical productivity metric for the CTSC and all CTSA institutions. To help ensure the success and continued funding of the UC Davis CTSC, please **CITE, SHARE, and SUBMIT**.

1

CITE IT

NIH Funding Acknowledgement

Investigators are required to cite the CTSC Grant in all publications that result from any support received from the CTSC, including use of CTSC services (such as biostatistics, biomedical informatics, clinical trials resources, etc.) or resources (such as the CTSC Clinical Research Center) or direct funding (such as pilot grant awards).

Scholars enrolled in the CTSC KL2, CTSC TL1, or MCRTF programs are required to cite the main CTSC grant in any publications they author or co-author for projects initiated or conducted during the trainee period, regardless of the date of publication.

Use the following language to acknowledge CTSC support:

"The project described was supported by the National Center for Advancing Translational Sciences, National Institutes of Health, through grant number UL1 TR001860. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH."

- KL2 scholars add:
"and linked award KL2 TR001859."
- TL1 scholars add:
"and linked award TL1 TR001861."

Need Help?

- Send an email to hs-conciergetsc@ucdavis.edu
- Review the NIH Public Access Policy (see <https://publicaccess.nih.gov/> and http://guides.lib.ucdavis.edu/nih_mandate)
- Attend NIH Public Access Policy seminars and workshops at the CTSC
- Contact Blaisdell librarian Amy Studer with questions at hs-nihpaphelp@ucdavis.edu

SHARE IT

Notify the CTSC about Publications

CTSC investigators and scholars are asked to email hs-conciergetsc@ucdavis.edu **before you submit your manuscript** for publication.

3

SUBMIT IT

NIH Public Access Policy

CTSC investigators and scholars who have cited the CTSC grant in their manuscript must ensure that an electronic version of their [final, peer-reviewed manuscript](#) is submitted to PubMed Central (PMC) upon acceptance for publication. *Failure to submit the manuscript to PMC within NIH-imposed deadlines may result in a delay in processing of all grant awards linked to the article.*

- Familiarize yourself with the details of NIH Public Access Policy at <https://publicaccess.nih.gov/>.
- Contact hs-conciergetsc@ucdavis.edu **before you submit your manuscript** to determine the journal's method of implementation of Public Access Policy.
- **Upon acceptance for publication**, send a copy of the final, accepted manuscript to hs-conciergetsc@ucdavis.edu and arrange for assistance with uploading your manuscript (if necessary) to PMC via the NIH Manuscript Submission (NIHMS) system.
- Approve all requests for review or changes emailed to you by the NIHMS system.
- Use the PMC identification number (PMCID) associated with your article at the end of the process as proof of compliance with the policy.
- Refer to "[CTSC Checklist](#)" document for more detailed instructions.
