Dear Alumni and Friends of the Eye Center:

Please join us at this year’s dedicated Ophthalmology Resident & Alumni Research Symposium here at the UC Davis School of Medicine Education Building. The centerpiece of the UC Davis Department of Ophthalmology & Vision Science has always been its training programs. As such, it is with particular pride that on this day, we celebrate the accomplishments of our residents and fellows in research—a component that is central to their training as ophthalmic physicians.

Papers will be presented and discussed by members of our practice community. Special events during that day include the Sixth Annual Alumnus of the Year presentation by Linda Marquilies, M.D. and the Byron Demorest Memorial Lecture by Barbara Arnold, M.D.

We wish to thank our Program Directors, Jeffrey Caspar and Nandini Gandhi, whose tireless work has made our residency program one of the finest in the country. In addition, we express our appreciation to John Keltner, whose dedication to research has driven the resident projects forward and with ever increasing scientific quality. Finally, we thank our planning committee—Robert Miller, John Keltner, and Kimber Chavez—for developing the program.

We look forward to this meeting when the Eye Center, our alumni, and the regional ophthalmic community celebrate the accomplishments of the past year.

Sincerely,

Mark Mannis, M.D., F.A.C.S.
