## Housing: Placement Agencies/Locating Facilities in Your Area

Placement Agencies can assist in locating facilities in your local area that will meet your caregiving needs. The process usually includes an intake and assessment to determine care needs and financial considerations. Some placement agencies offer the services free of charge; others charge an hourly rate, therefore when contacting Placement Agencies remember to ask if there is a cost associated with the services.

Also listed below are some search engines that will allow you to search for Residential Care Facilities, Assisted Living Facilities, Skilled Nursing Facilities and Long Term Care facilities in your area. Some search engines will provide quality of care ratings for the facilities as well.

### Housing: Assisted Living Facilities

Assisted Living Facilities are for individuals who are fairly independent but require some daily supervision and assistance with house chores and personal care. Assisted living facilities may offer rooms or apartment-style accommodations and, often, social activities. Meals are provided. Staff is also available to assist with different care needs, such as bathing, grooming, eating or using the toilet, and care is arranged as needed by the individual. The monthly charge for assisted living is determined by how much care a person requires. Please use search engine and/or placement agency above to locate Care Facilities in your area.

### Housing: Residential Care Facilities/Board and Care Homes

Residential Care Facilities, often called Board and Care Homes, are small group homes that provide constant supervision, meals and care for people who cannot be left alone, but do not require skilled nursing care from a registered nurse. Residential care facilities provide assistance with bathing, grooming, eating, using the toilet and walking, and they also provide socialization and recreational activities. Monthly costs for these homes vary and are usually negotiable. Please use search engine and/or placement agency above to locate Care Facilities in your area.

## Housing: Skilled Nursing Facilities (SNF)

Skilled Nursing Facilities (SNF) offer 24 hour personal and medical nursing care to residents. SNFs can offer short term rehabilitation services for patients just released from an inpatient hospital, such as physical therapy, occupational therapy, speech therapy, medication management, IV feedings, etc., as well as long term care for patients that are no longer able to live in an independent environment. The facilities listed below were provided as possibly having some experience with HD. Please do your own research in visiting facilities and determining if they can meet the needs of your loved one. *Other facilities may be available in your area and can be found by doing a search at the resources listed under Housing: Locating Facilities in Your Area or by contacting Lisa Kjer-Mooney, LCSW at 916-734-6277;*
