

The AAMC Professional Readiness Exam
(AAMC PREview™, formerly AAMC SJT)
Frequently Asked Questions

- 1. WHY IS UC DAVIS SCHOOL OF MEDICINE PARTICIPATING IN THE AAMC PREview™ PROGRAM?**
Our school is committed to enhancing the health of people by training students who are skilled, compassionate, and socially responsible. Our students have a solid academic foundation, strong interpersonal and communication skills, and demonstrate empathy, ethics, and cultural humility. We believe the AAMC PREview exam provides an opportunity to assess these critical pre-professional competencies and identify applicants who are prepared to learn about professionalism in medical school and meet the health care challenges of the future.
- 2. IF I HAVE TAKEN THE SJT, PREVIOUS NAME FOR AAMC PREVIEW, DO I NEED TO RETAKE THE EXAM?**
If you have previously completed the AAMC SJT for another cycle and are satisfied with your score, you do not need to retake the AAMC PREview again. Similar to the MCAT, we will see all attempts of the PREview/AAMC SJT exam.
- 3. WHY IS UC DAVIS SCHOOL OF MEDICINE USING THE AAMC PREVIEW EXAM INSTEAD OF CASPER?**
Our school felt the AAMC PREview exam was a good fit for our holistic process because it was designed to measure pre-professional competencies that are critical for success at UC Davis School of Medicine and the AAMC has conducted research to establish the psychometric properties and validity of the AAMC PREview exam. The PREview Exam is required by UC Davis School of Medicine for eligibility to the MD Program. We will not accept CASPER in lieu of the AAMC PREview.

11. WHAT DOES MY AAMC PREVIEW SCORE MEAN?

AAMC PREview results in a total score, which reflects your understanding of pre-professionalism and potential to learn and develop pre-professionalism skills. Higher scores reflect a higher level of understanding.

The AAMC collaborated with medical educators, including faculty, admissions officers, and student and diversity affairs officers to develop the scoring key for the PREview exam (i.e., the key effectiveness rating for each response). Scores are based on the extent to which your effectiveness rating for each response aligns with medical educators' ratings for each response. Full credit is awarded for an item if your response matches the medical educators' rating. Partial credit is awarded if your rating is close to the medical educators' rating.
