

MANDATORY UC DAVIS HEALTH SYSTEM HEALTH CLEARANCE CRITERIA

Please refer to this factsheet for specific instructions on completing the AAMC Standardized Immunization Form.

1. Both MEASLES (RUBEOLA & RUBELLA) Criteria:

1. Positive serology for antibody to both Rubeola & Rubella.
 2. Or, documentation of 1 Rubella and 2 Rubeola vaccinations (or 2 MMR's) in lifetime.
- Everyone must show proof of immunity to both Rubeola & Rubella. Per UCDHS Hospital Policy, all medical students must meet UCDHS standards. If any blood work returns with results showing you are negative, an MMR will be given.

2. MUMPS Criteria:

1. Positive serology
2. Or, 2 recorded MMR's
3. Or, documented 2 mumps boosters after a negative serology if no immunization records

3. VARICELLA (CHICKEN POX) Criteria:

1. Positive serology for antibody to Varicella
2. Or, documentation of **two** Varicella vaccines. Drawing titers is not recommended after vaccine. We do not accept the history of illness as a proof of immunity.

4. QUANTITATIVE HEPATITIS B Criteria:

1. Positive serology for a **quantitative** surface antibody to Hepatitis B.
2. Or, proof of having received 3 Hepatitis B vaccine injections if negative serology. **After having received 3 vaccine injections, a new titer MUST be drawn.**

NOTE: Hepatitis B titer ≥ 12 IU ml is considered immune. **ONLY** a Quantitative Hepatitis B titer will be accepted. If the incorrect titer is drawn, a new titer will have to be completed.

5. *TUBERCULOSIS (TB) Criteria:

Intradermal TB skin tests are **annual**.

The criteria are:

1. Evidence of PPD skin test results within the last 365 days of your start date **AND** evidence of PPD skin test results within the last 90 days of your start date.
Otherwise a 2-step PPD will be done (2nd test placement must be minimum 7 days after the read of the first test. Example: If 1st test was read on Wednesday then 2nd test can be placed next Wednesday the earliest, with the Friday read date.) The second step should be within the 90 days of the start date.
2. If a PPD result is Positive - Evidence of a chest x-ray within 90 days of your start date will be required. (If you have a history of positive PPD, and have previously completed a chest x-ray, a Negative Quantiferon with 90 days of start will be acceptable)
3. Negative Quantiferon lab test within 90 days of start date. If positive, see # 2 above. This test would replace a 2 step PPD.

6. *Hepatitis C Criteria:

1. **Negative** antibody Hepatitis C titer (anti-HCV). Titer result must be within 90 days of your start date
2. If positive please complete a viral load to ascertain disease & complete counseling on reverse transmission.
3. Refer to PCP for any potential follow ups.

Please list your Hepatitis C result and date under ADDITIONAL INFORMATION section of AAMC Standardized Immunization Form

7. TDap

8. SEASONAL FLU VACCINE: is required annually September-March.

***For items required within 90 days: If all other required application items are received; you will still be considered eligible for an offer. Upon acceptance of an elective, proof of completing these items must be uploaded to the supplemental document section in VSAS.**

For questions please email: studentrecords@ucdmc.ucdavis.edu or call: (916)-734-4027

NOTE: You will not be allowed to have any patient contact if you are not compliant with the criteria above. Immunization requirements can change at any time and students are expected to adhere to current requirements.
