Instructions for Taking an AHA Online Module

You must complete the AHA online course module before attending your AHA skills check.

Locate Your Assigned Module

1. Search your UC Davis email for: Subject: AHA Course Assignment on eLearning.heart.org; Sender: donotreply=heart.org@mg.elearning.heart.org on behalf of eLearning.heart.org
2. Open the email and select the course link that says: "Click here to enroll in this course."
3. If you cannot find the email, check your Spam or Clutter folder. Modules are sent to your UC Davis email address.
4. Incoming Pharmacy and Physician residents should check with their program coordinator for the email address used.

Activate and Complete the Module

5. Go to the top of the page and click on your name.
6. Select "My courses."
7. Select the Module Activate button.
8. Complete the assigned AHA online module.

All modules are located in the AHA eLearning Hub: https://elearning.heart.org

First-time AHA users: You must create an AHA account using the instructions above. Your account must match the email address to which the module was sent.

Returning AHA users: Activate the course using the same email address you used to receive the module.

Pre-course work is optional and does not count toward course completion.

Complete the Course Survey

Complete the survey at the end of the online module in order to receive your completion certificate.

Obtain Your Course Completion Certificate

Print or take a picture of your course completion certificate.

Bring Your Certificate to Class

Bring your certificate (printed or electronic) to your scheduled AHA skills session. Your online module must be completed before attending the skills check.
