

Health Clearance Checklist

Occupational and Employee Health Clinic

This checklist is provided to inform you of the information that Occupational and Employee Health Clinic will be requiring during your post offer pre-placement health screening at UC Davis Health. Please bring all documentation with you to your appointment in order to facilitate the health screening. Any needed screenings will be done at your appointment at no cost to you. You will be cleared to work once all requirements are appropriately met. Timing of clearance depends on the information that you bring in and the results of any of the screenings. To facilitate your health clearance appointment, you may choose to have screenings/titers/immunizations done at your PCP or provider of your choice at your own cost and bring the documentation to your appointment.

Immunization History

Documentation of immunization required for the following:

- ☐ Measles, Mumps, Rubella (MMR) – 2 injections (Rubella requires 1 injection) at least 28 days apart in a lifetime or positive titer level for each.
- ☐ Varicella – 2 injections at least 28 days apart in a lifetime or positive titer level.
- ☐ Tdap – 1 injection received after June 2005.
- ☐ Flu vaccine – 1 injection for the current flu season or a signed UC Davis declination (seasonal requirement)
- ☐ Hepatitis B – Proof of 3 Engerix vaccines or proof of 2 Heplisav vaccines and a follow up positive titer with a numerical value
- ☐ COVID vaccine administered after September 2023 or signed COVID declination.

Other Requirements

- ☐ Quantiferon testing or two step PPD done within 90 days of start date.
