

ADDENDUM 1
RFQ FOR CONSTRUCTION DUST CONTROL AND HAZMAT CONSULTING SERVICES

May 30, 2023

CLARIFICATIONS/RFIs:

- 1) *Page 5, Item 2 in the RFQ states screening criteria is for at least five projects, completed in the last five years; page 7, Tab 3 states to provide three to four projects executed in the last ten years. Would you please confirm the number of projects and "completed within" years?*

Please provide 3-5 projects completed within the last five (5) years.

- 2) *The RFQ is very specific about the maximum number of pages (32) to include in the Statement of Qualifications (SOQ), The RFQ also requires inclusion of both a hazardous materials report and a daily site report. Question: Does the University consider the reports separate from the - 32 page maximum - SOQ?*

Yes, the reports can be included as an appendix and not be counted as part of the 32-page limit.

- 3) *Please confirm the response should be organized as follows:*

OPTION 1:

Tab 1 - Cover Letter and Organization Introduction

Tab 2 - Diverse Project Experience

Tab 3 - Relevant Project Experience

Tab 4 - Staffing

Tab 5 Project Approach

Attachment - Consultant Statement of Qualifications form downloaded from the FD&C website

OR

OPTION 2: Do you want us to integrate tabs 1-5 into the Consultant Statement of Qualifications? For example, Tab 3 requests the same information detailed on page 3 of the Consultant Statement of Qualifications packet, should we use this form? Or should we reference a unique set of projects in each section?

Option 1 is correct. The CSOQ is a standard attachment to all UC Davis Health RFQs and even though some of the questions may be redundant with some selection criteria items, they must also be addressed on the form for quick reference, separately from tabs 1-5.
