CPMDS Lunch and Learn Series (Fall Sessions)

The Center for Precision Medicine and Data Sciences (CPMDS) invites the UC Davis community to a six-session Lunch and Learn Series exploring how clinical data, multi-omics, imaging, and artificial intelligence are advancing precision medicine. Designed for clinicians, researchers, trainees, and staff, the series provides practical introductions to UC Davis-specific data resources and analytical approaches, with an emphasis on responsible, reproducible, and translational research.

Sept. 23, 2026 – 12-1 p.m.

Getting Started with Multi-Omics at UC Davis
