

## Basic Science and Translational Cardiovascular Medicine

Pre & Postdoctoral Fellowships 2026-2027  
Up to 5 positions available

National Institute of Health supported positions in Basic and Translational Cardiovascular Science are available.

- Trainees will have the opportunity to work in a collaborative, multidisciplinary environment with faculty linked by common interests in cardiovascular diseases.
- Our research team includes faculty from five different schools and colleges: SOM, SVM, SOE, CBS, and CAES
- Trainees will have ample opportunities to learn and master state-of-the-art techniques in imaging, proteomics, genomics and bioinformatics.

### Eligibility

#### **All Applicants:**

1. Must be a citizen or permanent visa resident of the United States
2. Must demonstrate strong commitment in pursuing an independent academic career
3. Must provide strong interest in the area of cardiovascular and translational research
4. Must provide evidence of previous research training
5. Must participate in all Training Program Activities
6. All documents need to be combined into one PDF

### Application Documents

#### **New Applicants:**

1. Application Cover sheet
2. SciENCv (NIH format) or CV
3. SciENCv and NIH other support page for Mentor
4. Faculty/sponsor nomination letter
5. Research Plan (2-3 page limit)
6. Career goals (1 page limit)
7. Two letters of recommendation

#### **Renewal Applicants:**

1. Application Cover sheet
2. SciENCv or CV
3. Progress report (2-3 pages limit)
4. Two letters of recommendation, one must be from the proposed faculty mentor(s)
5. SciENCv and NIH other support page for Mentor

**Deadline:**  
Friday,  
March 20, 2026
