Site Key:

- 1 – University of California, Davis Medical Center
- 2 – Mercy Medical Group -- Sacramento
- 3 – VA Northern California Medical Center -- Sacramento
- 4 – Veterans Affairs Medical Center -- Martinez
- 5 – University Post-Acute Rehab

Continuity Experiences:

Outpatient clinic: one half-day per week at the VA (**Site 3**)

Long-term care: one half-day per month at a community nursing home (**Site 5**)

Vacation: 4 weeks taken in 1–2-week blocks

Rotation Experiences:

Home Care Coordination – Home visiting program caring for medically complex geriatric veterans recently discharged from the hospital who require intensive case management of medical and psychosocial issues to avoid potential rehospitalization. Fellows learn and work with an interdisciplinary team of physicians, nurse practitioners, nurses, social workers, dietitians, mental health providers, and pharmacists.

Home-Based Primary Care - Healthcare services for veterans who are typically home-bound, might be isolated, and might have complex social situations. A long-term service with home visits involving an interdisciplinary team including a physician or advanced practice provider, social work, rehabilitation services, behavioral health, nutrition and pharmacy as appropriate.

Acute Care of Elders - Interdisciplinary inpatient geriatrics care with a focus on mobility, polypharmacy and delirium prevention.

CLC (Community Living Center) and CREC (Center for Rehabilitation and Extended Care) - Skilled nursing facility care, short-term and long-term patients. Services including physical rehabilitation, cardiopulmonary and neurologic rehabilitation, IV therapies, wound care, and an inpatient hospice unit.

Mercy Geriatrics Clinic (Mercy Medical Group/Site 2) – Scheduled half-day sessions with geriatricians in an interdisciplinary geriatrics clinic; fellows also have the opportunity to make home and nursing home visits with physicians and APPs.

Psychiatry and Neurology

- **Geriatric Consult and Memory Clinic Rotation** - Scheduled half-day sessions in geriatrics, psychiatry, and neurology and one week of inpatient psychiatry (Site 3)
- **Healthy Aging Clinic** – Fellows work with geriatricians, cognitive neurologists, neuropsychologists, and psychiatrists in a multi-specialty, interdisciplinary clinic; fellows may also have the opportunity to rotate through other subspecialty clinics relevant to geriatrics (e.g., movement neurology, palliative care, and wound care) (Site 1)
