

Help Waste Find Its Place

Disposal of Items with Alcohol:

- Alcohol-Containing Items
- Individual Wipe Packets

Know Where It
Goes!

Items containing alcohol such as

- Sanitizing gel
- Antiseptic hand sanitizer
- Isopropyl alcohol (IPA)
- Chlorhexidine gluconate wipes
- **Unopened** individually-packaged items (such as antiseptic towelettes, sterile skin preparation applicators, hand sanitizing wipes, skin protectant, etc.) must be placed in **black hazardous waste bins** if the waste item contains **any amount of liquid**.

EXCEPTION: Opened, individually-packaged alcohol containing items may be disposed of in the **municipal waste**.

Contact EH&S before you implement any process change related to this information.
