

Waste Summary Flyer

Help Waste Find Its Place

Please do not place regulated items in the municipal trash. We must do our part to properly segregate our waste. If you are unsure where a waste item goes, reach out to EH&S.

Educational flyers and posters can be found on the [EH&S website](#)

Environmental Health & Safety

(916) 734-2740

Safety@health.ucdavis.edu

All Red-in-red

Waste Items with blood of any kind in any amount are biohazardous waste.

Red Bag Transport

New small transport bags are now available and feature adhesive strips to seal and secure waste.

IV Start Supplies

Used IV-start supplies that are contaminated with and/or contain blood or OPIM must be disposed in the biohazardous waste bin.

Plain Injectable Solutions

Upon drainage, dispose of empty plain solution IV bags into a regular municipal trash bin. Remove or cover any PHI prior to disposal.

PHI/Identi-hide

Dispose of paper PHI items in a confidential bin (no Identi-hide label needed). For regulated items, apply Identi-hide label to cover PHI and dispose of item in appropriate regulated bin.

Lawson Order Information
147408 - 4" x 3"
190505 - 4" x 1"
190506 - 3" x 2"

Personal Care Items

Dispose of personal care items such as shampoo, soap, toothpaste, lotion, and similar items in the blue pharmaceutical bin.

Pharmaceuticals

All empty, partially empty and full/expired non "HD" alert medication vials and single dose cups must be disposed in the blue pharmaceutical bin.

Black RCRA Bins

Return to Pharmacy Bin (aerosols, corrosives, oxidizers)

Hazardous Waste (compatible)

Items with Alcohol

Unopened Alcohol-containing items (i.e., antiseptic towelettes, IPA and sanitizing gel) must be placed in a black hazardous waste bin.

Skin Markers

Used/Unused skin markers must be disposed inside a black RCRA container.

Avoid Overfill

Full capacity waste bins are identified by the fill line on the container or when 3/4 full. Waste should not stick out the top or overflow.
