2. SECTION IV – SCOPE OF WORK

The scope of work will include: is amended as follows. The revised language is highlighted in ***bold italics***

- Daily audits of all the construction containment sites on the medical campus and ambulatory clinics
- Report daily audits, highlighting any deficiencies to the ICRA Committee on a weekly basis. ***For the purpose of this RFP, 150 ICRA permits is a maximum and audit 1x per week minimum. Quantity of anticipated ICRA permits is expected to decline over the contract period.***
- Create an audit inspection report compiling the data set for each location/permit from the daily audits of each containment (use one of UC Davis Health in-house options RSS, ATG, or Smartsheets). Auditing criteria will be determined by EH&S and other departments.
- Review the data and look for trends in compliance, recommend program changes, and identify specific areas for improvement. Report to the ICRA committee on a monthly basis.
- Recommend improvements to the policies and procedures as necessary, including any recommendations for education topics.
