

Gas Turbine Combustor 04-07-25-DJ RFP Vendor Questions / Answers

Will the site be providing any personnel to assist with the Field Service tasks? Customers typically provide one to two helpers to lower the Field Service costs, but we are perfectly capable of providing a full set of personnel if no helpers are available.

The site will assist with offloading equipment and staging of tools. The site will not be providing any helpers for the engine related work. Please propose a full set of personnel for the work scope.

What tooling does the site own? This may include stands, lift fixtures, a dolly, etc.

The site does not own any tooling specifically related to the performance of Gas Turbine maintenance. The Gas Turbine hoist is permanently attached inside the package and is inspected annually by a third-party.
