Responses to Written Questions

RFX00060 – Radiation Protection for Interventional Fluoroscopy Procedure Rooms

The following are responses to written requestions received in accordance with RFX00060 Section I – RFP Instructions and Timeline.

Questions as stated below may be slightly modified from original submission (e.g. spelling, grammar, punctuation, capitalization, insertion of clarifying understood wording in parathesis) for purposes of clarity in providing a response.

Q1: How many interventional rooms are anticipated to be included in this RFP?

A1: Undetermined. Please see posted RFP document, Section II – Background Information, paragraph immediately under "Background" header. "UCDH reserves the right to purchase equipment to outfit one, multiple or no interventional procedure rooms from this award." For purposes of current planning, there are at least nine different rooms currently in process for new or retrofit/remodel construction that may be applicable for placement of equipment.

Q2: Will the award(s) resulting from this RFP apply across the entirety of UC Davis Health clinical operations or be limited to specific projects?

A2: Please see posted RFP document, Section II – Background Information, paragraph immediately under "Background" header. "This equipment may be purchased for use in various existing, retrofit/remodel and new construction areas of UCDH facilities." Any award(s) made by this RFP will be applicable for the entirety of UCDH clinical operations.
