

Kee D. Kim, M.D.

Professor, Department of Neurological Surgery
Co-Director, UC Davis Spine Center
UC Davis Health

Congratulations to Dr. Kee Kim who delivered a key lecture titled, "[Ten year outcomes of one-and two-level cervical disc arthroplasty: Results from a U.S. multi-center study](#)" during plenary session II of the 2019 American Association of Neurological Surgeons Annual Meeting in San Diego, CA this April. The study showed that cervical artificial disc surgery, disc arthroplasty, is durable and efficacious for most patients even ten years after surgery. Dr. Kim also presented an Eposter, "[Twelve-month results from the INSPIRE study of the investigational Neuro-Spinal Scaffold™ in acute thoracic complete spinal cord injury.](#)" This study demonstrates promising results of a "biodegradable device aimed to facilitate spinal cord repair following Intraparenchymal implantation within the acutely injured spinal cord."
