At UC Davis Health we proudly apply the expertise, discoveries and technology of a world-class university to advance health and well-being for people and patients — both here in California and across the nation.
Our work includes:
- Demonstrating how to serve an urban core community
- Training and supporting rural health providers
- Providing the highest-level trauma care for our entire region
- Serving and protecting the community during infectious disease outbreaks
- Acting as a crucial specialty and subspecialty care resource
- Promoting diversity
- Educating providers and the health care leaders of the future

Our academic health system includes:
- UC Davis Medical Center
- UC Davis School of Medicine
- Betty Irene Moore School of Nursing at UC Davis
- UC Davis Health Clinics, with 17 locations across the region
- Community partnerships with organizations and health providers across the region
Patient Care

Nationally renowned UC Davis Medical Center is a leading referral center for the most seriously injured or ill patients and the most medically complex cases. It is nationally ranked in 10 adult and five pediatric specialty areas.

Among the top 50 U.S. hospitals for adults and children, one of the top six hospitals in California, and #1 in Sacramento, as ranked by U.S. News & World Report

Ranked among the nation’s top 50 children’s hospitals in diabetes and endocrinology, neonatology, nephrology, *orthopaedics, and *urology

*Together with Shriners Hospitals for Children – Northern California

Ranked among the nation’s top 50 hospitals in cancer, cardiology and heart surgery, ENT, geriatrics, gynecology, nephrology, neurology and neurosurgery, orthopaedics, pulmonology and lung surgery, and urology

High-performing in abdominal aortic aneurysm repair, COPD, colon cancer surgery, diabetes and endocrinology, gastroenterology and GI surgery, heart bypass surgery, heart failure, knee replacement, and lung cancer surgery

The only level I trauma center for both adult and pediatric emergencies in inland Northern California
The Children’s Miracle Network raised $4.5 million for UC Davis Children’s Hospital, ranking in the top 5 among western hospitals and in the nation’s top 10.

$450,000 from the Harvey L. and Maud C. Sorensen Foundation provided for a pediatric gastroenterologist and enhanced educational programs.

California’s first-in-the-nation gun violence prevention training program for health professionals will be based at UC Davis Health.

HOSPITAL AND PATIENT STATISTICS

- 625 Licensed beds
- 77,503 ER visits
- 914,809 Clinic/office visits
- 31,782 Admissions*

For year ending June 30, 2019
*Inpatient admissions; does not include 12,269 observation days

The West Coast’s first American College of Surgeons-verified level I Children’s Surgery Center — and home to newly expanded pediatric surgery facilities

UC Davis Medical Center — and individual nurse leaders — have received the nation’s highest recognitions for nursing excellence.

The West Coast’s first American College of Surgeons-verified level I Children’s Surgery Center — and home to newly expanded pediatric surgery facilities
Education

Innovative UC Davis interprofessional education gives the health care workforce of tomorrow the skills and values needed to lead change and improve health for all.

For more than 40 years, UC Davis students have volunteered countless hours in free community clinics delivering care for underserved populations.

Ranked among America’s best

The UC Davis School of Medicine is a top-50 medical school for primary care and research, including top 10 status for primary care training and top-20 for family medicine and ob/gyn in 2020 rankings.

Philanthropy impact:

The Gordon and Betty Moore Foundation granted the School of Nursing $37.5 million to create the Betty Irene Moore Fellowships for Nurse Leaders and Innovators, designed to develop a new generation of nursing leadership.

During the 2018/2019 academic year, we awarded more than $1.6 million in School of Medicine scholarships to 140 inspiring medical students.

Special programs prepare future primary care physicians to help the underserved:

- In urban and rural communities
- In California’s Central Valley
- By advancing Latino health
- By closing the primary care gap
The Betty Irene Moore School of Nursing launched a new nurse practitioner residency program with placements in community and UC Davis Health clinics in underserved areas throughout Northern California.

School of Medicine alumna Nadine Burke Harris (M.D., ’01), a leading expert on toxic childhood stress, has been named California’s first-ever surgeon general.

U.S. News continues to rank the Betty Irene Moore School of Nursing at UC Davis among the top 50 U.S. nursing schools.
UC Davis Health research includes clinical, translational and basic-science studies, with an emphasis on collaboration and improving health for people, communities and entire populations.

Confronting major health threats

- Our cancer center is one of only eight in California designated “comprehensive” by the National Cancer Institute. Together with centers at UCSF, UCLA, UCSD and UCI, we are part of the world’s largest cancer research organization, the UC Cancer Consortium.

- A model ER-based addiction treatment program at UC Davis Medical Center is expanding to counter the opioid epidemic.

- UC Davis Health leaders and researchers are members of the California governor’s Alzheimer’s task force, formed to respond to an expected surge in cases. And the Family Caregiving Institute at the Betty Irene Moore School of Nursing at UC Davis helps support the millions of people who care for aging family members or friends.

- UC Davis MIND Institute experts share best practices across the globe for neurodevelopmental disabilities. Three of the top 10 autism studies of 2019 were from UC Davis scientists.

- UC Davis Health will host a first-in-the-nation gun violence prevention training program for health professionals, created by California lawmakers. UC Davis is also the location of the first state-funded center for firearm violence research.

External research funding: $315 million in 2019

41 currently active cell and gene therapy clinical trials at the UC Davis Institute for Regenerative Cures
Improving health for all:

- Center for Reducing Health Disparities
- Center for Healthcare Policy and Research
- Center for Health and Technology

The Clinical and Translational Science Center helps advance lab findings into treatments, engage communities in research, and educate the next generation of clinicians and scientists.

UC Davis Health neuroscientists played a key development role in the first drug treatment specifically approved for postpartum depression.

The world’s first total-body medical scanner, invented by UC Davis scientists, is now in use for care and research at UC Davis Health.

Philanthropy impact:

A $500,000 gift from the Burns family helps support the UC Davis Eye Center, complementing Ernest Tschannen’s historic $38.5 million gift.

A $792,000 American Cancer Society grant award supports research on innovative early-stage cancer diagnosis.
Community Engagement

UC Davis Health actively engages with the diverse communities it serves in Sacramento, Northern California and beyond.

Caring for vulnerable population:
- Innovative partnerships with Federally Qualified Health Centers (FQHCs)
- Continuity-of-care support and chronic disease screening for ED patients
- Leading a statewide anti-tobacco initiative for safety-net patients
- Targeted physician training programs assist underserved populations and communities

Partnering with community organizations:
- Sacramento Republic FC
- California International Marathon
- Dozens of other organizations and events

Trauma Prevention and Outreach Program:
- Youth violence and traffic safety programs

Named one of America’s Best Employers for Diversity by global media company Forbes

UC Davis Health plays an active role in serving and protecting the community during infectious disease outbreaks and pandemics

Named a LGBTQ Healthcare Equality Leader by the nation’s largest LGBTQ organization
The UC Davis Health Cancer Care Network unites multiple cancer centers to offer patients leading-edge care in their own communities.

**UC Davis programs:**
- Train others to use technology-enabled health care
- Offer community workshops to increase health literacy
- Help students from diverse backgrounds to consider health careers

**The School of Nursing** partners with more than 350 clinical sites and community agencies for its education and research programs.

**National pioneers and leaders in telehealth and electronic medical records integration**

UC Davis Medical Center’s unique farm-to-fork food service made the national “Good Food 100 Restaurants” list alongside top Sacramento restaurants.

“Most Wired” status for health information technology from the College of Healthcare Information Management Executives.
