

Virtual **P**anel **D**iscussion

This informational session is designed to tell you what you need to know about our “transition to practice” programs.

The UC Davis advanced practice fellowship/residency program is designed to support new graduate nurse practitioners (NPs) and physician assistants (PAs) in the critical first year as they transition into practice. The programs’ primary goals are to help you develop relevant practical skills in critical thinking, evidence-based practice and procedural skills in your area of interest. Throughout your experience, expert advanced practice professionals and physician colleagues will help you develop specialty specific skills and the confidence you need to begin a career in primary care, trauma surgery, neurosurgery, in patient diabetes, dermatology or interventional radiology.

Our program panelists:

Christi DeLemos, MSN,
ACNP-BC, Chief of
Advanced Practice UC
Davis Health

Charity Tan, MSN,
ACNP-BC, In Patient
Glycemic Control team

Debra Bakerjian PhD,
APRN, FAAN, FAANP,
FGSA, Director of the
Advanced NP PRACTICE
NP Residency Program

Christine Picinich, MS,
AGACNP-BC,
Advanced Practice
Supervisor Neurological
Surgery

Kristin Matthews, MSN,
FNP-BC, Advanced
Practice Supervisor
Trauma Acute Care
Surgery

Mandy Schesser, MSN,
ACNP-BC,
Body Radiology APP
Preceptor

Benson Won, Chief
Administrative officer
Dermatology

Jen FitzGerald, AGACNP-BC
Advanced Practice
Supervisor Trauma Acute
Care Surgery

July
17

12-1 p.m.

The fellowship curriculum will include an immersive practice-based learning environment focused on your professional development. This will include the following learning strategies:

- Direct patient care in a supervised structured environment.
- Simulation training at our state-of-the-art center for virtual care
- Didactic courses in topics related to your specialty.
- Online-learning modules.
- Quality improvement conferences, grand rounds, journal clubs and multidisciplinary collaboration along the entire care continuum.

Learn more about the application process, who we select and your future at UCD as a fellow.
