DEPARTMENT OF PATHOLOGY & LABORATORY MEDICINE
GRAND ROUNDS
12–1PM WEDNESDAY
March 7, 2022
PATHOLOGY BUILDING, PATH 1002

“Cytologic diagnosis of salivary glands neoplasms with emphasis on tumors with basaloid features”

1. Overview of normal anatomy, histology, and cytology of salivary glands.
2. Outlines cytologic key points for diagnosing salivary glands neoplasms.
3. Recognition of the overlapping cytomorphologic features that may pose interpretation problems in diagnosing salivary glands neoplasms with basaloid features.
4. Review of the practical approach avoiding diagnostic pitfalls.

“Molecular Subclassification of Endometrial Carcinoma”

1. Describe endometrial carcinoma subtype and grade use routine H&E and IHC.
2. Describe molecular classification of endometrial carcinoma.
3. Explain molecular subtyping prognostic value and its role in treatment options.
