PATHOLOGY RESEARCH MEETING

PRESENTED BY:
Kassandra Ori-McKenney, PhD, Assistant Professor
Department of Molecular and Cellular Biology
University of California, Davis

12:00 – 1:00 P.M.
WEDNESDAY
August 28, 2019

Pathology Building, PATH 1002
4400 V Street, Sacramento, CA 95817

This is a non-CME event. Lunch will be served to attendees.

WebEx Details:
Call in: 1-408-792-6300, Meeting ID: 826 368 261
Join from video system/app: 826368261@ucdhs.webex.com
Password: AJFRfmpM

The focus of Dr. Ori-McKenney's lab is exploring the complex kinase pathways that regulate the cytoskeleton during neuronal development and maintenance. Her lab uses genomic engineering and live imaging techniques to understand the role of kinases in organizing the microtubule cytoskeleton in vivo. She is the recipient of an NIH K99/R00 Pathway to Independence Award (NICHD).
