Graduate Group in Public Health Sciences Pre-Approved Elective Course List

Courses are subject to change and are not always offered every year. Please check with the sponsoring department for the most current offerings. The Public Health Sciences Education Office only has elective information for SPH courses, all other courses you need to contact individual departments for scheduling. This list is of pre-approved electives. If you find a class not on this list that aligns with your academic and professional goals, it can count towards your elective requirements with approval from your faculty advisor. You can find details like the course description and pre-requisites on the UC Davis Course Catalog (https://catalog.ucdavis.edu/home/).
