

2018 Marion G. and Loren D. Carlson Lecture

Yoram Rudy, Ph.D., F.A.H.A., F.H.R.S.

Washington University

The Fred Saigh Distinguished Professor of Engineering
Professor of Biomedical Engineering, Medicine, Cell Biology & Physiology, Radiology, and Pediatrics
Director of the Cardiac Bioelectricity and Arrhythmia Center (CBAC)

Member of the National Academy of Engineering of the United States of America

Fellow of the Biomedical Engineering Society, American Heart Association and the Heart Rhythm Society

The Biomedical Engineering Society 2001 Distinguished Lectureship Award

Distinguished Scientist Award, Heart Rhythm Society

Distinguished Alumni Award, Case Western Reserve University

“Multi-scale Integration of Cardiac Excitation and Arrhythmia: From Ion-Channel Molecular Structure to the Human Heart”

Thursday, July 19, 2018 at 10:00 a.m.
Gladys Valley Hall, Auditorium 1030

Physiology and Membrane Biology
University of California, Davis
