

# Incorporating Fathers in Behavioral Health Treatment of Children and Adolescents

Jennifer Bob, Psy.D  
Olivia Briceño Contreras, Psy.D

Jennifer Bob, Psy.D. completed her Bachelor of Arts in Psychology at UC Berkeley and received her doctoral degree from John F. Kennedy University. Olivia Briceño Contreras, Psy.D. completed her Bachelor of Arts in Psychology at California State University, Sacramento and received her doctoral degree from Alliant International University, Sacramento. Both Dr. Briceño Contreras and Dr. Bob completed their dissertations on fathers of various cultures and demographics and are passionate about incorporating entire family systems into treatment.

Currently, Dr. Bob and Dr. Contreras are both Postdoctoral Clinical Child Psychology Fellows with UC Davis Department of Psychiatry and Behavioral Sciences and are completing their training at the Sacramento County Child and Adolescent Psychiatric Services Clinic. They provide therapy and psychological testing services to the underserved population of children, adolescents, and families.
