Dr. Lurvey believes in a patient-centered health care experience. He will walk with you through the most up-to-date scientific data, what it means, and most importantly, what it means for your individual case.

Together, you and Dr. Lurvey will identify your goals of care and how best to achieve those.

Dr. Lurvey is a general urologist offering care for all urologic conditions, including treatment for benign prostate hyperplasia (BPH), lower urinary tract symptoms, the use and meaning of PSA, kidney stones, and hematuria (blood in the urine).

He has a special clinical interest in treatment options for benign prostate hyperplasia (BPH). Dr. Lurvey has experience with all forms of BPH treatment, including extensive experience with button vaporization and transurethral resection of the prostate (TURP).

Additionally, Dr. Lurvey offers a minimally invasive clinic-based procedure, water vapor thermal ablation of the prostate (Rezum®). For larger prostates, he offers Holmium Laser Enucleation of the Prostate (HoLEP).

Dr. Lurvey also studies prostatic artery embolization for select patients.

Dr. Lurvey possesses a law degree and has prior experience in health policy. His research focuses on the interplay between law and medicine. He also has a research interest in how individuals understand risks and benefits in the healthcare arena.
