Use these instructions to map your computer to your UC Davis Health network (shared) drives.

1. From Mac OS X Finder, press Command + K on the keyboard to open the Connect to Server dialog box.
2. Enter smb://hshome/shared in the Connect to Server dialog box. (Figure 1)
3. Click Connect.

4. At the next screen (Figure 2), you are prompted to enter your name and password for the server. Confirm that Registered User is selected.
5. Enter your HS\Citrix username and password. **NOTE:** Be sure to include hs\ before the username.
6. Click Connect.
