Thursday October 8, 2020

View Recording: CIRM Fellows Trainees

9:00am Welcome Mehrdad Abedi, MD, UC Davis Health, ASCC Program Director

Catriona Jamieson, MD, View Recording: ASCC Network Value Proposition

9:10am Session I: Cures for Rare Diseases Innovation in Action

Moderator: Mark Walters, MD, UCSF, ASCC Program Director

Don Kohn, MD, UCLA – View Recording: Severe combined immunodeficiency (SCID)

Mark Walters, MD, UCSF, ASCC Program Director – View Recording: Thalassemia

Pawash Priyank, View Recording: Patient Experience - SCID

Olivia and Stacy Stahl, View Recording: Patient Experience - Thalassemia

10 minute panel discussion/Q&A

BREAK

9:55am Session II: Addressing Unmet Medical Needs: Driving Towards a Cure

Moderator: John Zaia, MD, City of Hope, ASCC Program Direction

Mehrdad Abedi, MD, UC Davis Health, ASCC Program Director – View Recording: HIV

Manasi Jaiman, MD, MPH, ViaCyte, Vice President, Clinical Development – View Recording: Diabetes

Jeff Taylor, Patient Experience – HIV

10 minute panel discussion/Q&A
10:40am Session III: Cancer Clinical Trials: Networking for Impact

Moderator: Catriona Jamieson, MD, UC San Diego, ASCC Program Director

Daniela Bota, MD, PhD, UC Irvine, ASCC Program Director – View Recording: Glioblastoma

Michael Choi, MD, UC San Diego – View Recording: Cirmtuzimab

Matthew Spear, MD, Poseida Therapeutics, Chief Medical Officer – View Recording: Multiple Myeloma

John Lapham, Patient Experience – View Recording: Chronic lymphocytic leukemia (CLL)

10 minute panel discussion/Q&A

11:30am Session IV: Responding to COVID-19 and Engaging Communities

Two live “roundtable conversation” sessions, 1 hour each.

Roundtable 1: Moderator Maria Millan, MD, CIRM

CIRM’s / ASCC Network’s response to COVID-19 Convalescent Plasma, Cell Therapy and Novel Vaccine Approaches

- Video Brigitte Gomperts
- Video Gay Crooks
- Video Helen Blau

Panelists

Michael Matthay, MD, UC San Francisco: ARDS Program

Rachael Callcut, MD, MSPH, FACS, UC Davis: ARDS Program

John Zaia, MD, City of Hope: Convalescent Plasma Program

Daniela Bota, MD, PhD, UC Irvine: Natural Killer Cells as a Treatment Strategy

Key questions for panelists:
• Describe your trial or clinical program?
• What steps did you take to provide access to disproportionately impacted communities?
• How is it part of the overall scientific response to COVID-19?
• How has the ASCC Network infrastructure accelerated this response?

Brief Break

Roundtable 2: Moderator Ysabel Duron, The Latino Cancer Institute and Latinas Contra Cancer

View Recording: Roundtable 2

Community Engagement and Lessons Learned from the COVID Programs.

Panelists

Marsha Treadwell, PhD, UC San Francisco: Community Engagement

Sheila Young, MD, Charles R. Drew University of Medicine and Science: Convalescent Plasma Program in the community

David Lo, MD, PhD, UC Riverside: Bringing a public health perspective to clinical interventions

Key questions for panelists:

• What were important lessons learned from the COVID programs?
• How can CIRM and the ASCC Network achieve equipoise among communities and engender trust in clinical research?
• How can CIRM and the ASCC Network address structural barriers (e.g. job constraints, geographic access) that limit opportunities to participate in clinical trials?
