

Presentations:

1. Geiger J, Mukhopadhyay S, Sharma S, Shrime MG. A Mixed-Methods Assessment of Surgical Capacity in Tigray Region, Ethiopia. Poster presentation at: American College of Surgeons Clinical Congress, 2016 Oct 16; Washington, DC.
2. Geiger, J, Curtis E, Nuno M, Humphries M. A Needs Assessment for Palliative Care Curriculum Development in Surgical Residents. Oral presentation at: Western Surgical Association Annual Conference, 2021 Nov 8; Indian Wells, CA.
3. Geiger J, Curtis E, Humphries M. Measuring Primary Palliative Care Delivery in Trauma Patients with Serious Illness: Adherence to TQIP Guidelines. Oral presentation at: Pacific Coast Surgical Association Meeting, 2022, Feb 11: Maui, HI.

Research awards:

1. **UC Davis GME High Value Competition QI Grant** (UC Davis, Sacramento, CA): Recipient of institutional resident-led \$7,000 QI grant to complete a project aimed at improving goals of care conversations amongst high-risk emergency surgery patients by harnessing EMR and IT tools to screen patients and ensure standardized documentation practices.
2. **2021 Association for Academic Surgery Foundation Award for Education Research:** Received one-year \$30,000 research grant to design, implement, and evaluate a skills-based primary palliative care curriculum for surgical residents. Curricular content involves simulation-based practice with an adapted version of Ariadne Lab's Serious Illness Communication Guide framework, with the overarching aim of better enabling shared decision-making and goal-concordant care for surgical patients with serious illness.
