

Sergio Aguilar-Gaxiola, M.D., Ph.D.

Clinical Interests

Dr. Aguilar-Gaxiola is an internationally renowned expert on mental health in ethnic populations. As on-site principal investigator of the Mexican American Prevalence and Services Survey the largest mental health study conducted in the United States on Mexican Americans he identified the most prevalent mental health disorders in the Mexican-origin population in Californias central valley; showed that the rate of disorders increases the longer the individual resides in the United States; and demonstrated that children of immigrants have even greater rates of mental disorders. From this study, he developed a model of service delivery that increased access to mental health services among the Central Valleys low-income, underserved, rural populations.

Dr. Aguilar-Gaxiola conducts cross-national epidemiologic studies on the patterns and correlates of psychiatric disorders in general population samples. He is the coordinator for Latin America and the Caribbean of the World Health Organizations Mental Health Survey, and coordinates the work of the National Mental Health Institute surveys in Mexico, Columbia, Brazil, Peru, Costa Rica and Portugal. He also develops culturally and linguistically sensitive diagnostic mental health measures, and translates mental health research into practical information for consumers and their families, health professionals, service administrators and policy makers.

Title Director, UC Davis Center for Reducing Health Disparities
Professor of Clinical Internal Medicine

Specialty Internal Medicine

Department [Internal Medicine](#)

Division General Medicine

Center/Program Affiliation [Center for Reducing Health Disparities](#)

Languages Spanish

Education M.D., Autonomous University of Guadalajara, Guadalajara, Mexico, 1977
Ph.D., Vanderbilt University School of Medicine, Nashville, Tennessee, 1986

Professional Memberships American Association for the Advancement of Science (AAAS)
American Psychological Association (Division 45)
Chair, Board of Directors of the National Mental Health Association
Commission of Community Psychology, Interamerican Society of Psychology
Member, National Advisory Mental Health Council of the National Institute of Mental Health

Sergio Aguilar-Gaxiola, M.D., Ph.D.
