

Peter G. Moore, M.D., Ph.D.

Clinical Interests	Dr. Moore's clinical and research interests involve cardiovascular and thoracic anesthesia as well as lung transplant anesthesia, subjects on which he has published widely in books and journals.
Research/Academic Interests	Dr. Moore has also conducted research investigating hypertonic saline, airway thermal volume in humans and its relation to body size, and the effects of calcitonin-gene related peptide (CGRP) and adenosine on regional coronary conductance in dogs with ventricular pacing.
Specialty	Anesthesiology, Pain Medicine
Department	Anesthesiology and Pain Medicine
Division	General Anesthesiology
