

Lionel Gayares Tan, M.D.

Philosophy of Care

Working as a night physician, I am here to provide the initial medical care for you when you are admitted to the hospital. My goal is to find out what is happening so that we can help you as best as possible.

I communicate to the day hospitalist physician in order to continue care for you throughout your hospital stay.

Clinical Interests

I provide medical care for inpatients. I admit patients overnight, cross-cover for already admitted patients, and coordinate care with other services.
