

## Jay Yeh, M.D.

### Philosophy of Care

Dr. Yeh's believes in both patient-centered and patient-driven care; care that is based on building a individual relationships with patients and their families. His aim is to use evidence based medicine and the most up to date medical information in delivering expert pediatric cardiology care.

### Clinical Interests

Dr. Yeh is a board certified pediatric cardiology with advanced fellowship training in echocardiography. He specializes in care of pediatric and adult patients with congenital heart disease; as well as pregnant women and their fetuses with heart disease. He has special clinical interest in pre-operative and post-operative care for cyanotic heart defects.

### Research/Academic Interests

Dr. Yeh's clinical research focuses on advanced echocardiography as a tool for the diagnosis and evaluation of congenital heart disease. These evolving echocardiographic technologies include 3-dimensional imaging, strain or deformation imaging as a quantitative assessment of myocardial function. He also has a research focus on the diagnosis, management, and outcomes with prenatal diagnosis of congenital heart defects, including fetal echographic parameters in predicting patient outcomes.
