

## Kelly Beth Haas, M.D.

### Philosophy of Care

As a pediatric gastroenterologist, I enjoy building a partnership with my patients, their families and other members of their health care team in order to work together to improve his or her health over time.

I understand families are often quite worried and overwhelmed by the time they come to see me for evaluation. I strive to provide evidence-based care rooted in the medical literature. I am honored to have the opportunity to guide my patients and their families through the diagnostic and treatment journey.

### Clinical Interests

Dr. Haas is a pediatric gastroenterologist providing specialized care for children with a variety of intestinal and liver diseases including inflammatory bowel disease, celiac disease, constipation, feeding disorders, abdominal pain, and nutritional disorders. She has a special interest in short bowel syndrome and intestinal failure.

### Research/Academic Interests

Dr. Haas has an interest in short bowel syndrome and intestinal failure, along with improving quality of care and patient engagement, particularly among pediatric populations with chronic illnesses.

**Title** Associate Clinical Professor
