

## Philip C. Mack, Ph.D.

<b>Clinical Interests</b>	Dr. Mack conducts molecular biology and molecular pharmacology studies for the UC Davis Cancer Center, the California Cancer Consortium, and the Southwest Oncology Group. For the past twelve years, Dr. Mack has conducted basic and translational research, with an emphasis on lung cancer. His investigations include molecular and cellular effects of novel anticancer agents in lung cancer models. Dr. Mack is Director of the UC Davis Cancer Center Molecular Pharmacology shared resource, Director of Basic Sciences for the California Cancer Consortium and Associate Director of the Southwest Oncology Group Lung Translational Medicine Committee.
<b>Title</b>	Director of Molecular Pharmacology Professor
<b>Specialty</b>	<a href="#">Cancer</a> , Hematology/Oncology, Molecular Biology/Medicine
<b>Department</b>	<a href="#">Internal Medicine</a>
<b>Division</b>	Hematology and Oncology
<b>Clinic</b>	UC Davis Cancer Center
<b>Education</b>	Ph.D., UC Davis, Davis, California, 1997 B.A., UC Santa Cruz, Santa Cruz, California, 1991
<b>Professional Memberships</b>	American Association for Cancer Research American Society of Clinical Oncology International Association for the Study of Lung Cancer Southwest Oncology Group
<b>Honors and Awards</b>	Helen and Christine Landgraf Memorial Research Fund Award, 2002
