

Sheri Belafsky, M.D., M.S., F.A.C.O.E.M.

Philosophy of Care	Working in prevention, my focus is usually on promoting good health in large groups of workers. However, it's in getting to know individual patients that makes my work feel meaningful. One of the best parts of my work is when I call patients with questions related to their testing and then we go on to have bigger conversations about health and wellness.
Clinical Interests	As the UC Davis Medical Surveillance Program's director, Dr. Belafsky works with California employers to identify potential workplace health hazards. She develops individualized medical screening programs based on these hazards to help keep workers safe.
Title	Physician Director, Medical Surveillance Program Department of Public Health Sciences Associate Physician Diplomate
Specialty	Medical Surveillance Program, Occupational and Environmental Medicine
Department	Public Health Sciences
Center/Program Affiliation	Center for Occupational and Environmental Health
Address/Phone	Research Park, 1616 DaVinci Court Davis, CA 95616 Cannery Building, Sports Medicine, 3301 C St. Suite 1700 Sacramento, CA 95816
